SENIOR HEALTH COUNSELING NOTICE

Because Medicare, Medicaid and other types of health insurance can be confusing to most people, the State of Nebraska has developed a free program (SHIP) to educate people with Medicare, empowering seniors and people with disabilities to make informed decisions about health insurance.

SHIP's trained volunteers can provide:

- Information and support during the consumer's decision-making process.
- A review of individual health insurance plans.
- Unbiased information.
- Free services and literature.

For more information, please contact SHIP at: 1-(800) 234-7119
